The ADVANCE Thresher has NEVER
been RLPLACED by any other machine
on the Coast but has replaced several
others that HAVE FAILED to fill WAR-

RANTEF Why get some OLD STYLE machine because it is cheap when you can get an ADVANCE on the start and do good

get an ADVANCE on the start and do good work in any kind of grain. You do not have to cut and try with the ADVANCE, but start your power, then commence threshing at once I take the liberty of referring you to the following parties owning ADVANCE. The sterns (without their knowledge) Dr. H. A. Davis, Harris berg, after wasting most of the season try in a toron a cheap machine, bought an ADVANCE and averaged 2000 bushels per day. M. F. White & Co., Dixie same experimee, but after getting an ADVANCE everaged 2016 bushels per day. Knox Bros. 4thsin, with a bittle 22-inch machine averaged 18,09°2 bushels per day.

then around with a fittle 2-sinen machine averaged 16.025 bushels per day. Henry I Bold, spangle, writes, after trving a —— muchine the least part of the se seen bought an ADVANCE. Was then all to run without a black-mith and car penter shop. The ENGINE is guaranteed to pail more than any o her, and will out-tree I all others on the road. If you hear my last its ple s tell the parties the ADVANCE I THRESHIR and I NGINF are sold on their merits entirely. And I am willing to prove all I clum in any field at any time. Do not be humbagged by buying any machine until you see the ADVANCE. I also hundle steam fitting goods non page, hainedly machinery and

A Handsome Present.

Ean Francisco, May 15.—The Elivertown Telegraph Company, of England, has preented John W. Mackay with a handsome glass case, containing samples of all the telegraph cables in use throughout the world, prettily theped with German silver bands.

Arrival of the J. D. Peters.

San Francisco, May I5.—The bark J. D. Peters, for whose safety fears have been entertained, arrived this evening, 130 days from Newcastle. The captain states that light winds were experienced during the entire voyage.

AN ADEPT AT SWINDLING.

The Scheme Which a Young Man Perpetra-ted on Unsuspecting Liquor Merchants.

room, accompilsh the same feat without a refrigerator.

It now pursues out, however, that the refrigerator
was really, as was suspected, a clever
device only thinky was substituted for the
land. The trick, when performed elsewhere,
than at the refrigerator was done by means of a
tin breast plate or armor worm under Comp's
clothing. This armor was double, and was in resality a reservoir, which by means of a concealed
tube could be emptied or filed at will.

Comp was invelged into taking a detective into
partnership with him, but when his arrest was
contemplated, smets a mouse and fied, icaving behind the refrigerator, but earrying off the armor.

Annual Meeting of the Stockholders and

Parsone, Kee, May 15.—The ennual meeting of the stockholders of the Missourl, Kansas & Texas Raliway Compeny was held in this city to-day. MADE ON THE WORK GEO.A.MACBETHERCO.PETSBORGH.PA

Robert Stewart of Petaluma recently had a queer experience. He writes:

"Carbunders and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surptise it made matters worse. This made ma lose faith in a sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dod up boils and face eruptions instead of forcing more out as the potash sarsaparillas do, I bought a bottle. The effect was satonishing. The carbunders and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a boule with the same henefit.

Ennear Stawar.

"Petaluma, Cal."

[Explanatory Note—The mineral iodice of potash, which is the bails of nearly all other forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its regetable alteratives stimulate the various secretive organs and thus eliminate all impurities through the nearural channels, hence dries up pimples and akin eruptions at once. The above testimonial is a case in point!

Joy's Vegetab e One pint of the pure juices of vegetable alteratives indigenous to California, combining the most effect

INQUEST ON LUERS BODY.

track Monday night, was robbed of his money and fourly-dealt with, is exploded by the discovery of a certificate of deposit for \$140 in his source.

It, and at once stopped the frait and ran back. He also felt of the man's body and found it to be coid.

J. W. Crocker, conductor on train No. 11, that went out in the middle of the afternoon, stated that he put its decreased off his train because he was drunk and refused to pay his fare. After he put him off and saw the train pass sadely, he saw nothing more of him.

J. F. Maboney, engineer of a special train that passed the noith where the body was found lying at about 7.00 k. M., stated that he saw the man lying heddle she strack, shout three feet from the rails and in a little dish, but did not think that his train man over him. He said that he could have fait the jar had his engine passed over the best of the could have fait the far had his engine passed over the man, it was his opinion, that he would have left the and the could have left the same train, and if his coard had passed over the man.

it was his opinion, that he would have felt the lar.

Of all the witnesses who were sworn none desired to shoulder the blane, though it was clearly avident that some train had ritled the man.

The lary, after carefully weighing the teatimony, roturned a vesdio-finding that the name of the deceased was William Lucry, that he was a single mon, 50 years of sze, and a native of Genany; and that he came to his death on the line of the Portland & William the Valley Railway, at a point one and one-half in their from Portland, on the evening of May 10th, by being run over by a special train, in charge of Conductor Smith and Engineer Mahoney.

As shown by the evidence no blame could be attached to either, atthough cuipalie negligence no doubt oxisted somewhere.

The brother of the deceased has taken charge of the remains and will have them buried some time during the day.

INDIANCE IS OWN WITH STEED.

INDIANCE IS NOT BY THE STEED.

Asloonkeeper, his morning out his writes know as as as as one stood with hear young: even in her arms, it killing her instantly. The rain to a vacantine, and, lying down, standard his cognitional writeshearest rawe, dying half an hour labor. Behavening was insance.

Astoria Pionrer.

Flectro-Magnetism is the wender of the age, and the mode of treatment is the acme of perfection. It penetrates the accret ambush of disease and axterninates it, root and branch, forever. It removes the wreathed symptoms of loathsome meakdies, and averts its dreadful effects. It cures the most hopeless cases, and relieves acute pains that every known means have failed in-which can be substantiated by the evidence of thousands of persons who have been cured by Drs. Dartin, Portland, where they are now located and are treating scores of patients daily. The following are a few open letters that speak for themselves, and many more could be added did not the want of space forbid:

Her Experience With Drs. Parrin.

Dr. Darrin.—Drar Sir: I wish to express my gratitude to you for the wonderful results your Electro-Magnetic treatment has done in my case. Three years ago I was stricken with apoplexy—numbness and great pain in my head and neck follower for a long time. Other afflictions came thick and fast. I had chills, fiver and stounach derangements, causing yomiting for weeks. In short, my whole system was thoroughly permeated with malarial poison and continued so until October, 1887, when I had I second stroke of parelysis. Hearing of you I put myself under your care, and now, after three months' treatment, I rejoice to tell you that I am restored to health, and can be referred to at Corvailis, Or. If this will be of service to you, publish it. MRS. N. P. BRIGGS.

The Boetors' Place of Business.

Drs. Darrin can be consulted free at 205 Fifth street, corner of Main, Portland, and Occident botel, Astoria, Cregon, and will under no circumstances take a case that they are positive they cannot cure or benefit. Charges are reasonable, and the poor treated free from 16 to 11 A. M. Tuesdays and Saturdays. Office hours, from 16 to 6 o'clock daily; evenings, 7 to 3; Sundays, 10 to 12. They cure permanently all the diseases of the genito-urinary organs in either sex, and make a specialty of dusiness and catarrin, and also treat successfully all diseases of the ness and treat, eye and ear, etc., as well as all acute and chreat diseases of whatever name or nature; if cusable. No cases taken if not. The Boctors' Place of Business

EAST PORTLAND

This magnificent property comprises 1400 lots and lies immediately between the city of East Portland (population 12,000) on the south and the city of Albina (population 4000) on the north, being scully a "reserve" between two populous centers with a combined population of East Portland (population 4000) on the north, being scully a "reserve" between two populous centers with a combined population of East Portland of East Portland and Albina and is reached by the street cars of the Willamette Bridge Railway Co. from either Portland or East Portland. This company is now operating two lines of street cars, one running north from Holladay's addition, through the beart of East Portland, across the Morrison street bridge, and the other running due west across the new steel bridge, both lines terminating in Portland. In addition to those two lines the cars of the Vancouver motor line run directly through Holladay's addition from north to south. The property can also be easily reached from the "west side" by either the Southern Pacific Railroad Company's steam forcy or by the samil ferries running from Portland to Albina. Bome of the finest residences on the "east side" are located in this addition. Many of the most prominent residence of Portland and East Portland are now purchasing property in Holladay's addition and many elegant and substantial residences will be constructed there during the coming year. A magnificent Boulevard, Holladay avenue, 100 feet wide, cuts through the entire property from west to east, and is now one of the most popular drives out of the city. This connects with the new steel railroad and wagon bridge, (spanning the Willamette) on the west, thus giving easy access into Portland from this most desirable property. Address or call on

INIOPAL LAW MAKERS, CONTRIBUTORY NEGLIGENCE

William H. Watkinds v. The Southern Pacific Co. No. 1566. Action to recover damages.

a. A statement in an answer purporting a defense of contributory negligance, to an

foully-dealt with, is exploded by the discovery of a certificate of deposit for \$440 in his tohacco ponch.

The inquest out the remains was commenced at 9 o'clock yesterday morning, but owing to the alsevence of the most material witnesses and algorimment was taken until 2:50 in the afternoon, after two or three witnesses had been examined. A broiner of the deceased, working at Muunt Angel, identified the remains.

T. W. Buckhardt, who wes running as conductor on the train that left the depot site. 3P. M. Monday, told of the circumstances of finding the body. It is said that the train commenced slowing up upon reaching Powers' factory, and soon after came to a standatill. He was then told that a body lay on the track. Going back to the reached. The body was lying close to the track on the cast, side, at a point about 50 feet south of reverse factory and soon the said, at a point about 50 feet south of the body it was cold, with the exception of all the warmth that still remained about the man's clost. From appearances the man had been dead about an hour.

W. J. Cooper, engineer on the same train corroborated the lestimony of Burkhardt. He observed the body was not the train and ran back, the also felt of the man's body and found it to be cold.

J. W. Crocker, conductor or train No. 11, that

Louis Conton, of Monthucon, France, has probably the longest beard in the world. He is scarcely five feet in height. His bethe neasures seven feet, and he wears it wound round his neck. It is absurd to suffer from Dyspepsia when Sim-mons Layer Regulator will cure you.

MYSTERIOUS POWER. A Wonderful Remody for a Wonderful

Open Letter.

Open Letter.

Drs. Darrin—Gentlemen: I now take pleasure in wriling to you that after a full course of your electric treatment I am entirely cuted of a pain in my chest which has troubled me for over eight years. Having been under treatment by duckers of Liverpool, Glasgow, Calcutta and San Francisco, none of whom did me any good, until I came under your treatment, which I am sure has permanently cured me, for which, gentlemen, I beg to remain, gratefully yours.

ND BUNIONS ALL THE PROPERTY OF WEST GLASS OF BEER IN THE

He quotes from data furnished him in 1884 by Secretary Drinkwater, of the Canadian Pacific road, showing that the Dominion covernment granted the road, in aid of its construction, a subsidy of \$25,000,000 in money, as a loan, and donated to it 25,000,-000 acres of land, embracing only land fit for ettlement; also, right of grounds, dock privileges and water frontage.

Besides this, the government agreed to construct and transfer to the company 714 miles of railway, the value of which was estimated at about \$30,000,000. Telegraph privileges were granted, the company was guaranteed against competition for twenty-five years, and the stations, buildings, equipments and the capital stock were declared free from taxation. Not only this, but the Canadian government guaranteed a minimum dividend of 3 per cent, per annum for ten years on the capital stock of the company, \$100,000,000, the company having placed with Interest would be equal to the dividend on

the stock at 3 per cent, for ten years.

The report of the president of this company, made in 1887, is quoted to show that pany, take in 1897, in quote to show that the cost of the 714 miles of road received as sigif from the government, was \$35,000,000. The lard subsidy of 25,000,000 acres was reckoned to be worth \$37,500,000, but of course is not available for this sum. However, the government in 1886 took back 6,793,-814 acres of this subsidy, paying therefor at the rate of \$1 50 am acre, \$10,189,521. When the province of Munitoba revolted at the provision giving the Canadian road a mo-mopoly, the Dominion government compro-mised with the road by guaranteeing interest at 5,4 per cont. on bonds to the amount of 15,900,900, payable in fifty, years. On the 31st of December, 1886, according to the anal report of the minister of railways for a Dominion, \$25,000,000 of the original subddy had been paid by the Dominion government. Mr. Nimmo says the line extending from St. Lawrence bridge to Mattawamkeog, Me., a point on the Penobscot river, has een subsidized at the generous rate of \$186.-300 a year. Also, that the balance sheet of he government of Canada shows that the total expenditure of the government, en Canadian Pacific account, in cash, to June 80, 1886, was \$60,845,727 94, and that on the 30th of June, 1837, it was \$61,760,785 43. Put-ting sti data together Mr. Nimmo genelades that the Canadian Pacific has realized, directly and indirectly, from the aids afforded it by the Dominion government, fully the cost of the road, and its equipment, plant and nu ternal and supplies which, according to the salance sheet for December 31, 1887, amounted in value to \$165,548,810-70. Some of our own transcontinental roads bave received large assistance from gov-

CRUMBLING AT THE EDGES.

election of 1888 are proof that the Solid South is beginning to crumble at the edges. The New York Herald, a democratic paper, prints inese a atements, viz :

nuose distements, VIZ:
Marykand, in 1880, gave 15,191 democratic ma-ority: in 1886, 11,288, and in 1888, after four years if a democratic Federal administration, only 6182. Virginia cast, in 1880, 4,566 democratic majority; n 1884, 6141, and in 1888 this dwindled down to

West Virginia gave the democrata a majority of 11,148 it 1880, which fell to 4222 in 1884 and to 889

Virgin a will be counted in the republican column in 1892, and a change of a little over ticipation in the government.

Cleveland carried four Northern states in 1884 and but two in 1888. The house of representalives elected in 1882 had sevenly one democratic majority; that chosen in 1884 had only forty-one; in that of 1690 the dam had only lovey-one; in that or less the dem-coratio Liajority dwindled to eleven, and in the coming congress the democrats are in the minerity. It looks very much as it "a Bolid South" was hardly a winning card in the duty thumb-worn democratic pack.

A feature of the grand reception held in New York on Centennial day, was the return, by President Harrison, to the Washingtonian custom of receiving and returning the salutations of callers by bows instead at by handshaking. This last custom has grown to be one of the most irksome duties to which the position that they occupy subjects the president and his wife, and there is no reason why it should not be abolished at public receptions at the White hous; and elsewhere. The amount of vitality and hervous force uselessly exvitality and nervous force uselessly ex-pended in taking several hundred or thousand ptopie by the hand in quick suc-cession might be reserved for graver duties with profile all several days.

cession might be reserved for graver duties with prolitto all concerned.

Party enthusiasm and jubilating have frequently pushed this custom to the extreme 'limit' of physical endurance on the part of the executive. Mr. Cleveland' stood the strain remarkably well, being a phlegmatic nian, who did not expend nerve force readily, and bis wife acquired a definess in the operation that might almost be termed "sleight-of-hand," and enabled her to turn off the job with more than ordinary facility. President Airthur, on the contrary found President Arthur, on the contrary, found the courtesy demanded of him by this oustom exceedingly irksome, and retired from the presidency a nervous wreck. How much of his ritality was wasted at the behest of this useless custom and the extreme to which the great American citizen carried it, it is of course impossible to say, but it was doubtless a rotent factor in the great com-

trom his position larger begun to tell upon this service is not of a kind that regards an obligation. President Harrison has been from his position major begun to tell upon him singlisty. If he ded continue the reform in the mainer of receiving callers inaugur-tion at flow York, in institution of the old Wathington method, he will protect himself from a more or less serious drain upon his strength; without impairing in the least his popularity or usefulness as president of the United States, and at the same time put a needed check upon a form of social extravagance that, though originating; in feudationes and customs, is now distinctively American.

SOUTHERN IRON.

due to the competition of Southerniron. Dis-patches from Chattanooga say:

patches from Chattanooga say:

New furnaces are going into blast almost daily, said the cost of making pig hereabouts is very small comparatively, as fron, coal and limestone are found almost in the same ledge. Unskilled labor is cheep and stifkes almost unknown. Southern from mon claim that the advantage is with them, and that they may carry the war on prices still further, as their market must be for the greater part in the North.

An Atlanta (E.a.) dimendeb of the continuous.

An Atlanta (Ga.) dispatch of the 7th says:

An Atlanta (Ga.) dispatch of the 7th stys: The price of Southern pig Iron, white below that of Pennsylvania, is by no means the lowest figure that can be given. The iron business is in its infuncy here, the methods of work are crude, the labor costly because inexpert, the business is loaded down by inexperienced managers and handicapped by many outside expenses. It is under this condition of things that Southern ron has put the Northern product on the run. Experience is taking the place of ignorance, labor is becoming more expent, and, therefore, the production per capita will be so much greater, and useless expenses are being lopped off. In this way the price of from may yet be materially reduced

the price of fron may yet be materially reduced

The Boston Herald, discussing the iron

The heavy cut in the price of iron by one of the leading Pennsylvania companies, making the price the lowest since the panie of 1878, renders it

price the lowest since the panie of 1373, renders it apparent that the northeen producers have no intention of bring driven out of the market by their new southern rivals without a struggle. The reduction brings the price down to a point where there can be but a small margin of profit for the producers in any part of the country. Nevertheless, the development of the Iron industry in Alabama goes on at a rapid pace. The daily outtof from from twenty furnances in Birmincham

"MR. FLOPPY FLY."

A young man of Tacoma, one of the large

class whose members hall from everywhere, found that a life of the drinking, irresponsible, quasi-respectable sort was not, on the whole, worth living, and made his quietus with a revolver Wednesday morning. A

letter in his pocket, from a sister in a North-

western state, in which the hope was ex-pressed that he had "quit drinking and was getting on nicely," sufficed to establish his

identity, to show how the hopes of others

tives of its close.

Such a suicide, the outcome, as it is, of

cowardice, of moral weakness, of everything that is unmanly, is calculated to create doubts as to whether mankind is improving in the qualities of sturdiness and virility that

are the most reliable tests of true manhood.

Its indirect evidence of possible improve-ment in humanity, though the doctrine of the survival of the fittest is encouraging to those who believe that the world will even-

tually be redeemed in honor, integrity and physical perfection through this law; but otherwise the testimony is rather against than in favor of the improvement in the hu-man race, in which we all delight to believe

when our digestion is good and things gen-grally conduce to a charatable view of our surroundings.

While there is for the most part a dreary sameness about the suicide of the reckless,

worthless young man that restricts the news-gatherer to the barest details, there is an oc-

for the resolve to quit the world. Occasionally, also, the pistol is cast saids as a means

used by the rulgar to attain the desired and

water that he was about to spoil, he took the

ing paper, the causes that led him to take his

celebrated by two funerals, both in the best

in his most elegant clothes and took passage for the next world, apparently quite enam-ored of himself and his faultless method of

performing a disagreeable job.

It would be incredible, were not the evidence in the premises so complete, that a human being could be so utterly devoid of intelligence and spirit as this, and

vet be able to earn \$1200 at anything under

the sun. Being such a fooi, however, he perhaps made the best disposal of himself that was uossible. If the parade that he or-dered for his funeral took place according to

the minute directions left for that sorrowin

the minute directions just for that sorrownin occasion the probable idlory of it may set sensible people who witnessed it to thinking, and result in a resolve on their part to dis-tinguish themselves from the fools by order-ing the plainest and quietest disposition of

had been wrecked by his dissolute life and

without destroying a profit.

A resident of Carthage, Mo., has in his possession an original price list of slaves, the property of Jedferson Davis's brother before the war. Babies are quoted at \$100, children of 12 years, \$600; able-bodied women, \$300, and thrifty farm kands at \$1100. The Thomas Iron Company of Pennsylvania, one of the oldest and largest iron companies in the state, on the 5th inst. announced a reduction of \$1 in the price of No. 1 and A man 50 years of age was worth but \$600, while an old blind woman was act down at saro. This is a relie of the system that the democratic party of the United States up-No. 2 pig iron. The prices herelofore have been \$18 for No. 1, \$17 for No. 2 and \$15 for held, strove to extend and wished to perpetuate, and that the Southern confederacy was organized and fought to maintain. Good reason for not liking the democratic party and the Southern confederacy. lowest official prices made for pig iron on the Atlantic coast since 1879. The New York Evening Post quotes this reduction against the tariff policy of the republican party, but it is

matter favorably.

The w fe and mother of Washington Irving Bishop are of the opinion that the au-topsy or the deceased mind reader was held before he was dead, he having in their opinion simply falten into a trance. Be this as it may, one cannot well refrain from the be-liet that he being now dead beyond perad-venture. Bishop and the public are alike to be congratulated upon the event. Even the eager pursuit of science can scarcely reconpense a man for being made the victim of fits, contortions and idioeyneracies, which in such violent and unusual forms beset this ____

earnestly urged to grant unnesty to desert ers with the object of removing the attainder

from such as have entisted and deserted without due consideration, and there is reason to believe that he will consider the

Dispatches of yesterday furnished another installment of the Ferry acandal, direct from Paris. If Mr. Ferry wishes to maintain his character as a sensible self-respecting man among his Tacoma neighbors, and to establish a similar character before the world that has hean colmitted as audience to his family been admitted as audience to his family broils; he would do well to return home as quietly and quickly as possible, bringing his children with him, since certainly no good can result from a further public exchange of compliments with his wife and blows with

Returns from the election held in Washington territory yesterday indicate that the constitutional convention to be held in July will be a republican body. Those who claim to know the sentiments of many of the delegates claim also that it will be an anti-woman suffrage body, though later developments on this point will be looked for in some quarters with no little interest. It is probable that this issue will be side-tracked, so to speak, that is, that it will be submitted as a separate proposition to be answered by the distinct "yes" or "no" of

Nearly, perhaps quite, two-thirds of the members elected to the constitutional convention of the coming state of Washington are republicans. Under the provision of law that allows to one party no more than two of the three members of any district, they could not have more than two-thirds. There is no doubt that the propulsions will be used. is no doubt that the republicans will control the states of Washington and of North Daketa and South Dakota. There will be a vig-orous party contest for control of Montana.

The exposition now in progress at Paris is a stupendous mirror of the skill, the genius, the tasts and the general development of the civilization of the world. Germany and Turkey are the only important countries unrepresented in this great exhibit of the industral and inventive life of the globe. The absence of the former is readily und stood to be the outcome of the political batred between France and Germany, which time despens rather than softens,

It is a common thing for raitroad mag-nates to say: "The public be d-d." Van-derbilt and Jay Gould set the example; so we ought not to be surprised to find Ranson and other directors of the Oregon & Trans-continental at Pordand following it.

frament, but nothing like this. Moreover, the loans made by government to our Pacific roads must be repaid, principal and inter-est, and their grants of land possess only in part a realizable value. Since the Canadian road virtually has no debt to warry and no "fixed charges" to pay, it is in an exceptionally good condition to compete with our own transcontinental lines, and may carry freight and passengers at about as low rates These are facts that explain the discussions that have taken place before the sexate investigating committee at New York, as to how the competition of the Canadian road is to be met or dealt with. It

The democratic majorities in the national

and drowning is selected as a proper mode of exit. A case in point is that of a young man of New York who, a few weeks, ago drowned Kentucky, in 1880, cast a democratic majority of himself by jumping into Central Park resen roir. His trouble was a grievous one. His income was but \$1200 a year and this he found wholly insufficient to nermit him to play the role of the gilded youth of the me-Delaware was democratic in 1884 by 4003, and in The chances are that Virginia and Wost tropolis. Eather than be less than this, he cared not to be at all and with a sublime disregard of the quantity of good drinking

\$000 votes would separate Maryland from the "Solid South." Crady, of the Atlanta (Ga.) Constitution, saw "the handwriting on the wall" after the November election, and truthfully interpreted it when he said: "A fatal plunge. The preliminaries, as well as the reasons for the act bespoke the gentleman sui-cide. He wrote in Spencerian hand, on mourn-Solid South invites a Solid North, and for the South to remain solid is therefore to inour the chances of being placed in perpetual minority and practically shut, out from parlife, directed that his obsequies should be style of the art, one in a Fifth avenue church and another in a church at Poughkeepste, where his fuller lived, then dressed himself

THE HAND-SHAKING CRAZE. A feature of the grand reception held in

Y. W. W.

ing the plainest and quietest disposition of their mortal remains that is possible. The trouble that afflicted this young man was almost as grievous as that of "Mr. Floppy Fly." in the nonsense verses who is remembered for his inability to "go to court, because his legs were all too short." And there is further some reason to suspect that the analogy extended to the intelligence and social value of the two. Secret sessions of the senate are a survival of the practice that prevailed during the first six years of the government under the constitution, when all the sessions of the constitution, when all the sessions of the senate were neld in secret. This was at the time when congress met in the little building still standing at the southeast corner of Sixth and Chestnut streets, Fhila-delphia. So strictly was this rule enforced that admission to the chamber was decied even to the members of the house even to the members of the house of repre-sentatives. Repeatedly efforts to open the doors of the senate to the public were voted down prior to the year 1795, when secret sessions were abolished, except in cases apecially ordered.

it is of course impossible to say, but it was doubtless a potent factor in the great combination of rauses that weakoned his vital forces, and left him an easy prey to disease. President Jarrison is a man of sound constitution and good health. He has led a life of temperance and splitfary common to describe the muniper describe her army in times of industry. Yet he hads, the stolid, unincombinately that is Cleveland's chief character.

BOEL BE STOKED.—Blds for sheet pile dike and restment at Dry Stocking bar, Tillamook bay, were opened at Captain W. Youngs office stocking the product of the stocking of the stocking the

fore the contract can be awarden.

Mission Work Exergen—The Board of Immigration, or some other agency, ought to use some sailed of enlightening the people of Philadelmeltod of enlightening the people of Philadel-phia, Pa. United States of America, relative to the fact that. Oregon is one among the United Bates and has been so for a number of years. In sold and able a paper as the Philadelphia In-quier, in giving a list of those who composed the committee on organization of the re-cent Y. M. C. A. international convention, the name of Noel H. Jacks appears as representing "Washington and Oregon Territories."

-Washington and Oldgoo territorios.

Chloroformino A House.—A big horse belonging to the Oregon Transfer Company, which is a valuable animal in a team but a victous brute in

any to the oregon in taster but a victous brute in the stable, and which has strong objections to being shod, was taken to the abony exterday to undergo that operation. As a preparatory necessary as well as the control of the stable as few as securely stable and the job accomplished. The same animal blicked a man, in the stable a few days since, emaking a watch in his vert pocket.

INFORMAR EXCHIPTION.—It is expected that Rev.

C. F Clapp of California, the new superintendent of none massions for the Gongregational churches for Gregon, will arrive with his famile on the theorigh train from California this morring, and that me will be presented the prayer moeting in the First church, corner of Second and Jefferson street, this evening. It is expected that in resident members, as far as possible, will be presented to evten this man earnest and cortuin welcome to his new field of labor.

Why NO HASTE.—County Judge Cathn yeater-Why so Hasta - County Judge Cathin yester-

pointed a guardan for the Holladay chitarro was because it was not such an easy matter to find one stantly fitted for the position. He intimated that insamuch as a guardian would likely serve until the children became of age, it is pre-eminently necessary that the proper person be chosen for the position, and for that reason mudue haste should not interfere with a judicious selection. Kwaszana Bousen Gygg.—Edward Thurman,

RECORD BOS INCEPTED WITH A JUDICIOUS SCIENCIA.

EXPERENCE BOUND CYCER.—Edward Thurman, the man who was arrested at LaCamas by Marshal Morgan, of East Portland, on a charge of subscaling \$75. from Charles Moreer, his employer, was yestendy hound over to the grand fury under bends in the same of \$500. It agrand fury under bends in the same of \$500. It agrand fury under bends in the same of \$500. It agrand fury under bends in the same of \$500. It agrand fury under bends in the same of \$500. It agrand fury under the same of \$500. It agrand fur white a waiting trial on a charge of horse steading in Folk county. In desault of the necessary bond Thurman was taken to the county jall.

inken to the county fail.

A STALEM SULK—About 7 o'clock last night a young man was caught on North First street, having in his possession a suit of clothes that presumably was stolen. He rest-were all blocks with a large crowd in had pursuit, and finally was obliged to give up the race. The trousers are brown with light-colored stripes and the coat and vest are of a back diagonal material. If the owner will call at the police station and prove property, the suit will be returned to him.

will be returned to him.

THE PORTLAND SWELTER.—The lumber for the double-track train road was delivered at Linton yesterlay. An additional force of men will immediately be put to work on the relette. The long switch on the railroad line is nesting completion as instance and be expected, with the provailing weather. A dossan or more houses are up, or in commod construction, and the town of Linnton and the sweiter are assuming a tangible and definite theory.

The River Rising.—Workmen were engaged until late last night in drawing up the Stark street feery pontoons. The East aide one was hunled back some twenty feet, while the one on this side only required to be from about differen feet towards from street. The mote was rendered necessary by the gradual rise in the river.

A PIDE ARTICLE.—The cream milk manufactured by C. L. Roper & Son, the Oregon Condensed Milk Company, is not at all tile the condensed milk sole in ting but is of the consistency of rich areas, and is a very fine satisfactor strawberries or coffee, or for making for cream.

Fire Breries.—A remarkably fine lot of straw-

or coffes, or for making for oream.

Har Branis.—A remarkably fine lot of strawbernies were received here yesterday from Turn

ar's station, from a man who has seventeen acres
of them. They cold readily for 10 cents a basket
more than California herries wur selling for. If
his clouds were do roll by the berries will come
rolling in by the ton.

New Civizens.—Two families recent arrivals

Any Churchs. Two families recent arrivals from Columbus, O., yesterday purchased eight bits in Highland, span which they immediately commence in the building of their homes. Home callers are not humaners. All extend them a hearty selforms. Their names are J. C. Sifried and J. T. Longfellow.

Rma Gressen.—Birds for the stone foundation of the new 8t Fastrick's church, were epened at the edison of the Klaemann, architect, yesterday, with the following result. James Barrett, \$2505. Rich and Sartie, \$250; Darmey & Zamello, \$2505. Vin ent McCullough, \$309, Ryan & Curran, \$4250. Bayres Pay the "The Addisonment of Settlewood." ent acculiongh, \$2008, Ryan & Curran, \$2200.

Batter Pay Ur.—The delinquent tax list is now in the hands of the sherif, and those who have he arready put up the coin to the amount of their assemble with no doubt nave expenses and costs by paying up as promptly as possible. The delin tent list this year foots up to over \$20,000.

Statusus Curran Pay.—By a special dispatch

THE SCENE OF MANY TRACEDIES. Alder Etreet Takes the Lead for Shooting Scrapes and Bloody Conflicts.

Some genius with a remarkable head for assort-Some genius with a remarkable head for assorting singular coincidences has made the discovery that Alder sirect is pre-eminent; the most sanguinary thoroughfare in the city.

Second and Alder streets was once called "the dead man's crossroad". Three men were shot there in one night at the time Neally was killed at the old Cornucopia salcon by the notorious "Jack" Barebard.

Jack Harris stabbed a man on the coffer of Second and Alder streets some(time after.

Zed Wilson shot and instintly killed Mike Shermassy in the Fifteenth Amendment salcon, on Alder street, between First and Second streets.

A man rasmed John Dilloit shot Charles Mandet at the Argonaut salcon, on First and American Second and Albert streets.

Four Chirament were shot on the correct Second and control the control of Second Control of Libertable Parks of the Control of Second Control of Libertable Parks and Second Sec

ond and Alder streets in the late Chinese high-binder conflict.
Constable Lithenthaler was shot at by Harry Irwin at the corner of Third and Alder streets.
One of Sullivan's detectives shot a boy in the ley on the corner of Pirot and Alder streets, loseph Moran shot at Al Cody, with intent to kill, at the corner of Fourth and Alder streets.
The poor boy Herman Joseph, who was shot through the heart by Brown, was standing very near Alder street on Third at the time of the tragedy.
Emil Weber was shot by Sandy Olds at the cor-ner of Third and Alder streets.

THE PIRATICAL CORPORATION.

PORTLAND, May 13. TO THE EDITOR OF THE OREGONIA TO THE EDITOR OF I HE URECONLAN:
The action of a part of Mr. Villard's board of
directors of the O & T. Co. is about as flagran- a
violation of law as over was perpetrated by the
whiltom firm of Flak & Gould in the painty days of

violation of law as ever was perpetrated by the whilom firm of Flak & Gould in the palmy days of the Tweed regime.

I am not pecuniarily interested in either the O. & T. or O. R. & N. Co., but as a claim of this state I am interested in the maintenance of our laws and in the punishment of the violators of it, whether they be so-called Wall street magnates or common mortals.

I would like to call our district attorney's attention to article io, page 5.2, leady's Code by which any corporation "which for a period of six mon, his ceases to carry on the business for which it was incorporated, shall clease to have any corporate powers," and upon a proper motion by the distort all." Now that O. & T. do. ongs no second to have had any legal existence, for it was no high out a bubble at its unception, but for a period of six months, yes, for a much longer time, it has excessed to carry on its business. It is a vargrant, has no visible means of support, ought to be arrested under the vargrancy set as by law provided, driven out of existence, ought not to be altered to associate with descent, respectable configurations or move in respectable society. It has too much impudence for a vagrant and tramp; if does

nothing to make allving. Mr. District Atterney, have it agressed, brought before the court, and have it declared a nulsance and viped out. Let it vatish from off the face of the land. It is no good, never was and never will be. Out with it, and the footer parents to have a wholesome regard for he footer parents to have a wholesome regard for he footer parents of have a wholesome regard for he have a bring them up with a sharp turn and make here respected to the was at hough turn and make here respected to the was at hough turn and make here respected to the was at hough they were not Wall street manipulators.

The Huited States graphout Monoency was to have been sold at Yokohama on May 13, at public suction, by order of Rear-Admittal Belkinap. The ship, with fixtures, was to have been offered at an apact pric of \$10,000. The Monocacy is a double-ender paddle wheel steamer of 747 tons, but has new bothers, her machinery is in good order and she can stenue eleven knots.

The espisite of the Martha Fisher says that coming down the river Monday afternoon, a squall from the south made the vessel list almost over on her beam ends. The Otterspool takes \$2,000 barrels of flour to Londonderry. It is valued by the abippers at \$4 a barrel on board. Thirty one lumdred short tons of flour is considerable of a cargo.—Astorian.

The Brillsh ship Palgrare, now on the way to New York from Coltuila, will, it is reported, earry back to India 1,300,000 gallans of kerosone oil. The Palgrare is a strong from vessel of 3078 tons, and on November 9, 1886, left Frisco with the largest carge of grain ever taken from a Facific coast port.—Proneer.

The Australian steamer Bockton is due at San Francisco about the 19th with the sailors of the wrecked warships at Samoa. The Mariposa, which will probably arrive to-day, has also some of the soilors. of the soliors.

The steamer Gen Miles arrived in from Grav's harbor at 6 o'clock vesterday morning, the immediately unloaded, took on another eargo, and left at 7 P. M. This is rather quick work.

The Canadian Pacific steamer Danube arrived in port from Victoria at 3 30 o'clock yesterday afternoon. She brings a general cargo, mostly Chinese merchandiso.

The ricamer Oregon sailed at 12 o'clock last night for San Francisco with her usual large cargo and passenger list. The Columbia is due into this afternoon. Two steamers came up from the Lower Colum

bia restorday, each having in tow two large

Uncerned Railroad Land.

To the Editor of The Oragonian:

If the Northern Pacific Railroad Company should get the uncarned land from Walthla to Portland and I am a settler and have improvements on a piece of land of this company, does the government protect me to any extent in holding the land when it comes into market?

Is there a price fixed by the government on railroad land?

road land?

[(1) It is not likely the Northern Pacific will ever get a title to this land. They have, in lact, long since expressed a willingness to have it declared forfeited. If you are a settler upon a quarter section you will have the first right at the land office to file upon that land when it is opened to settlement. (2) The ratiroad companies themselves fix the prices upon the lands granted to them by the government.

The Boy's Just Complaint. Chicago Tribune

famous revolutionary stateman of that name, and a great-grand nephew of Thomas Jefferson replying to Bishop:Poster s pessimism makes a most 'interesting and plansi ble argument to prove that the American revolution was a most unpopular movement. The population of the colonies was some the population of the cotonies was some three million and the lighting force not less than half a million; Food was plenty because nearly the entire population was against the part of the light and the light and the British government had for half a contary distributed muskets broadcast in the colonial wars against the French. The colonies were indeed poor company with the weath of poor compared with the wealth of indeed poor compared with the weath of England, but not so poor but they could easily buy ammunition. Mr Morris fairly argues from these facts that if the contest had been a popular one instead of the being impossible for the continental congress to keep on foot more than 10 000 or 17,000 men it would have easily record a bundred thous

keep on foot more than 10 000 or 17,000 ment it would have easily threed a hundred thous and and 's warmed the English off the continent. Gouver cur Victus of revolutionary memory always maintained to the end of the long like that up to 1 3 in popular vote would have given King George a two thirds majority and he always treated with contempt the pretensem ace after the revolution by demigogues that the masses were patrious during the time that in dimen's soils. The leaders of the Rivo union included English revolution whigs who supported what they considered the frue theory of the English constitution, and relied to the last upon the whigs of Lu, and for simportupon Burke Fox Chatham Rockingham Canaden, Barre, sheliumne and many other distinguished men. Then there were the Boston merchants who found their sinusgiling trade cut off by the English navi officers who zealously collected the outsides who zealously collected the outsides and the same first the revolution while the proposition. Hader the influence of these two classes the colonists gradually deficied into an unpopular war, which in the long run succeeded simply by the efforts of what Mr Morris terms "a small number of obstinate and chief Angle-Americans, nearly all of whom were on the aristocratic class, and who were largely held together by the in the boars, is mail much of early who cannot be long that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of the Rights army according that all the unit forms and accourtements of Fragland bare becomes almost that all the unit forms and accourtements of the Rights army according to the chain at accord

ing away all tory sympathizers by armed pickets on the roads. This was, of course the same method practiced by all the able accession leaders in 1861 to dragoon their states into withdrawing from the Union by buildowing Union men from the polls
By these means a few influential men in
position throughout this colonies forced their
dependents unto line A fact that Mr. Mar The street not mention is the description of the cause of the coones for that of the king by his famous grandfathers brother who rose to distinction of Finles service and districted a daughter of the English nobility. OLD AND NEW WORLD. The Duty on Lead Ore Argued Be-

fore Secretary Windom.

Hail Storm in Virgin a-Resignation Accepted-The Samean C aference-A Vessel Wrecked-Father Egan's Test mony, Etc

WASHINGTON May 15—A large delegation of numers and smelters from the West an pared before accretary Windom to-day for a hearing touching on the ruling of the treasury department in regard to importation of lead ore from Mexico According to this ruling lead ore is imported free of duly as previous metal if the silver contained therein exceeds the lead in value. This ruling they contend injures the smelting interests of the Western territories and they are that it be revoked and the ore be chassifed by the weight of the various metals. If the workend injures the smeltinginite exist of the Visitern territories and they are existed and the ore be chastifed by the sught of the various metals on possing it instead of the valuation on possing it instead of the valuation of Representing this view of the case were present for the visited of the valuation of Price and Dependent of the valuation of Representing this view of the case were present for the visited of the valuation of the price of the visited of the valuation of Price of the visited of the valuation of the correctness of the rating a number of New York and K insus City dealers and present They argued that an analysis of the language of section 85, imposing a duty of 12 to cents per pound on lead ore, would show that the ruling of the department is the correct. They called attention to the fact that in 1839. Socretary Sherman is and made a similar ruling and that Assistant Secretaries Farichid and May nural as and existed in a like manner. The sentate committee on judiciary habeen called upon to pass its opinion as to the ruling and unanimously decided that it was correct and proper, and in view of these facts, they manufalled that the secretary should have recourse. The hearing will be continued to-morrow. The hearing will be continued to-morrow. The hearing will be continued to-morrow the time of the treasury should be made to pay duty imposed by law upon the forming part of an uniported the research of the very street will be continued to making before the department ruled that lead ore should be free of culty when forming part of an uniportation of which silver was the material of chief value from the wine the was mised until it reached the refined state, to show that this was so, they asked the deportment to return to 1x old ruling making these importations of the proposition and it was certified the proposition and it was certified the use of Summons the full the proposition and it was certified to the open of protection and it was certified to the use of Summons the full the protect

The tariff laws, they said were based on The tarif laws, they said were based on the principle of protestion and it was certainly no purpose of congress to declare lead datable and then to open a passway for the evasion of that duty by the importation of large quantities of lead with small portions of silver.

The upholders of the present ruling con-sumed most of the time to-day and will be first heard to-morrow after which the lead men will be given fuller opportunities to present their case.

A FUMIGATING STEAMER.

The Union From Works of San Francisco
Again the Lowest Edders.

Washington May 16—Three bids have been received by the marine hospital bureaugy // for the construction of a funigating steamer for the quarantine station at San Francisco
The lowest was that of the Union Iron Works of ban Francisco for \$30,000 it is not certain that this bid will be accepted, as it is aver \$16,000 more than the contract price for the two vessels, similar in every respect now being constructed for service on the Atlantic coast.

A DAMAGING HAIL STORM

The Vegetable Crop of Norfolk County,
We Almost Entirely Destroyed

Now York Evening Post.

Everything now indicates that the agitation for state and national prohibition has begun to subside, and that it will not revive until after a thorough trial of the substitute which has been accepted by public sentiment. The wiser of the prohibition ists themselves recognize the attention and announce their intention to co-operate in so curing a thereough enforcement of the existing laws where high license and local option have been adopted, and in urging the enactment of such laws where they are not in force. That the cause of temperance will profit in the general acceptance of this policy cannot be doubsed.

No danger ever streng the second in the second acceptance of this policy cannot be doubsed. No danger ever attends the use of Simmon: Liver Regulator,

A MATTER OF CHOICE.

Dana, of the New York Sun, was asked whether port wine did not bring on the gout. He replied that he thought it did but that the man who would not prefer to suffer a few twinges of the gout rather than give up his port wine wasn't a man after his heart.

Many things like this are a matter of choice, and we really believe that we are justified in saying that those who will not, in the face of the who will too, in the face of the testimony which we can offer, try ATHLOPHOROS when they have Neuralgas or Rheumatam, really choose to keep the rheumatam rather than alter their opinions.

Ath-le-pho-res, \$1.00 per Bottle, at all Drug Blores,

A HORSE WHO CAN TALK!

Everybody has heard of a "horse laugh," but who has ever seen an equine gifted with the power of speech? Euch an animal would be pronounced a miracle, but so would the telegraph and the telephone a hundred years ago. Why, even very recently a cure for consun ption, which is universally acknowledged to be scrofula affecting the lungs, would have been looked upon as miraculous, but now people are beginning to realize that the disease is not incurable. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time and given a fair trial. This world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this It is the most potent tome, or strength restorer, alterative, or blood-eleanser and nutritive, or flesh builder, known to medical science For Weak Lungs, Spitting of Blood, "Liver Complaint" and Dyspepsia, or Indigestion, it is an unequaled remedy

"Golden Medical Discovery," is the only GUARANTEED. medicine of its class that is sold by druggists under a printed guarantee from the manufacturers, that it will benefit or cure in every case of disease for which it is recommended, or money paid for it will be refunded.

Copyright, 1888, by Worln's Dispussary Medical Association, Proprietors

SFT REWARL is offered by the manufacturers of DR. RAGE'S CATARRH REMEDY, for a case of Catarrh in the Head which they cannot cure. By its mild, soothing, and healing properties, Dr. Sage's Bennedy cures the west cases, no matter of how long standing. SOc., by druggists.

LONDON GRAIN LETTER. in London states Letters. The London correspondent of the Northwestern state, writing under date of April 20, says of the Test Stuation:

Ans. Jondon correspondent of the Northwestern Rice, withing under date of April 20, says of the Float Installant.

In weather has become milder, and is much be such as become milder, and is much be such as the such as the

THE DRIED FRUIT SITUATION. are still buying. As the Rev. Jasper says, "The world do move." California dried fruit is running flag was up before the old sparined Eastern plug go; half way round,"

and yellows 3cc. Again on the 8th 16c was knocked off and onthe 10th and 11th 16c each day all around. In its regular weekly review of the markets the San Francisco Commercial News says: Merchants general yeomplain that the commercial situation is exceedingly dull, with just enough life in Isolated instances to emphasize the flatness of trade considered as a whole. The coast has been visited by a comprehensive storm, which did more or less damage to shipping, and in many portions of the interior laid early sown grain, arousing gloomy anticipations and sotting a lost innumerable rumors about possible injuries to the crops. A careful estimate of the damage a statued in cases where wheat and barley were ruger, which was followed by two changes toward a lower basis, making for the weck at intain decline of 15c, while the American refinery has in the meanum marked its products dwm \$2c. No sause is assigned beyond the fact that sugar was so high that consumption was affected. Eastern and foreign markets hold their subvances, and the expect and subvances are still pursuing a conservative burst of the product of the subvances and this will undoubtedly continue to bursacierzo the operations of this interest the season through. The market for stuck goods remains quiet within the range of prices as given in last report. Spinion is still util at unchanged rates, the demand being very limited. According to dispatches the run of saimon on the Columbia in April was nearly if not quite up to the average, the fish eaught toward the close of the month averaging about the same as shose generally captured in May. Batters cannot be satisfactory of the same as those generally captured in May. Batters cannot be found to the Schema tiver continues. California dread fruits form the most striking, exception to the widespread duliness in trade, this product being active and in much reduced supply, porticularly French clied prunes which are about cleaned up. Grain sacks are in rather better demand for forward delivery, without, hawever, any material change in price. A slight improvement in the demand from the futerior is noted for sait provisions, but it is not of sufficient material. There is a good demand for rice at well maintained prices. Hawaisian le closely consumed and the MIJS mats received by the W. H. Dimond which Riched port Wednesday, were needed to repleptish stocks in first hands, Epicos rulequiet, there being ample supplies and a moderate trade. Nutmegs have been marked up in sympathy with higher primary markets. Oll is in fair demand as last quoted. Oil cate meal meets with a somewhat improve implies and an increased demand. There are no changes whatever to report in coal and meeds.

The Local Market.

FICKES—quete Spa

Pickles—Ruse 3: 90c; 5a, 41

SUGAR—Ruse 3: 90c; 5a, 41

SUGAR—Ruse again declined since last quoted. We quote to-day Golden C, 84c; extra C, 64c; dry granulated, 8c; cube, crushed and powdered, 85c.

BEANS—The market shows no change. We quote: Small whites, \$2.50: pink, \$63-25; bayos, \$3; hutter, \$562-25; limus, \$4.50 per cental.

CORDAGE—We quote: Manila prope, 2½ in. circ. and upwards, 17½c: 12 thread, ¾ diameter, 18c; 6 and 9 thread, ¼ and 5-15 diameter, 18½c: Manula halo roye, in coils or on reels, 15c; lath yarn, tarred, 15½c; Siast rope, 1½; 1½, 1½, 2½ 2½ in. circ., 14½c; 1 circ and ½ diameter, 15½c; 6 and 9 thread ¼ and 6-16 in. diameter, 15½c; 6 and 9 thread ¼ and 6-16 in. diameter, 15½c; 6 and 9 thread ¼ and 6-16 in. diameter, 15½c; elian pale rope, 14;

NEW YORK SIDE MARKET.

NEW YORK SIDE IN STOCK MARKET.

NEW YORK, May 15.—Stocks to-day showed a stronger tone than usual of late, and most of the active stocks are higher this evening. The difficulty between the Union and Northern Pacific was felt in the market, and made those shares weak points in the active list, while Oregon Nortigation declined materially on small sales. The market displayed some hesitation at the opening, and the first prices were only steady, while Union Pacific and Omaha were down % per cent. each. Government bonds have been dull and steady.

New York, May 14.—Money on call, easy, at 26/25. Prime mercantile paper, 31/26/51, Sterling to change, dull, steady; 60-day bills, 44 87; demand, \$4 89.
